The Liver as Aid To Blood Purity

The Natural Stimulus Required is Not the Pur-gative Kind.

Most Pills Are Better if Thrown Away.

Important as it is to keep the bowels open, it should be remembered that such action does not necessarily mean that the liver has been stimulated. The action of S. S. S. is a natural liver tonic, but not a bowel mover. It works in the liver cells to assist in the natural and necessary function of converting from the blood certain constituents into what are known as assimilable products. These are readily absorbed into the body tissues to constantly provide new and healthy material for that which is being destroyed by the energy of tissue changes.

The presence of any blood trouble naturally suppresses a healthy liver, but there is required three distinct properties which, upon reaching the liver, will retain their catalytic energy to keep on through the blood circulation to do battle with impurities wherever they may have settled. Rheumatism, catarrh, angina, most skin diseases and other results of impure blood, while implicating the liver for their morbid influence, are quickly checked by S. S. S. Its action throughout the blood circulation results in the stimulation of the tissue cells to the healthful and judicious selection of their own essential nutriment.

You can get S. S. S. in any drug store, but make upon having it.

Take no chance by permitting anyone to recommend a substitute. And if your blood condition is such that you would like to consult a specialist, address The Swift S. S. S. Co., 526 Swift Bldg., Atlanta, Ga.

PROHIBITION IN RUSSIAN ARMY TO BE ENFORCED

St. Petersburg, July 23. That the Car was thoroughly in earnest in his recent announced determination to make the Russian army dry is shown by the text of the new prohibition regulations published today. Officers are forbidden to drink vodka in camp, on maneuvers or while on duty with their men.

Commanding officers are ordered to discourage as much as possible the drinking of any kind of intoxicants by their subordinates, and are recommended to set the example themselves. Vodka is forbidden to the enlisted men at all times, and the most stringent measures will be taken to prevent them from buying it.

ATTORNEY SAYS LEEVE PEOPLE HIRED GUNMAN

Says They Imported Rocco Venille To Kill Morals Inspector

Chicago, July 23.—Charges of police corruption and evidence to sustain his accusation that the death of a detective in a levee fight a week ago was the unexpected result of a plot by levee characters to murder W. C. Dannenberg, chief morals inspector, were taken before a grand jury today by State's Attorney Hoyne.

The State's Attorney declared he had evidence to prove that the owners of the resorts in the levee district, desperate at repeated raids under Dannenberg, had imported Rocco Venille, a New York gunman to kill the morals inspector.

Hoyne charged that Lieut. Grady, in charge of one of the levee police stations, had attempted to hamper his investigations.
